■ WOODFLOORSINDIA.COM: OFFICIAL PROVIDERS OF MAPLE SPORTS FLOORING FOR THE CWG 2010 IN JV WITH HORNERS, USA.-

The use of wood as flooring has caught the fancy of the architects and consumers in a big way in the last one decade. Our firm Parquet Furnishers Pvt. Ltd (Woodfloorsindia.com) has been involved in consultancy and are also providing project solutions in Housing, hospitality and Sports sectors in all types of wood floorings since 1975 and as on date enjoy the largest share in the market. The company has been focusing exclusively on the wood flooring and has contributed to this growing industry by laying wood floors of highest standards in terms of quality all over India. They are presently offering the entire range of this medium under one roof and have trained labour force and machinery to undertake installations anywhere in the country.

The company has been continuously adding new product lines from time to time to offer its clients the best and today it has reached a level where goodwill and trust are their true assets. Among their product line are brands such as Renaissance Hardwood Floorz, Woodline Engineered Flooring, Environ Laminated Flooring and Horners Sports Surfaces to name a few.

It may also be mentioned here that PFPL in JV with Horners, USA are also the official providers for Maple Sports flooring Systems in almost all major stadiums being used as competition and warm up venues for the upcoming Common Wealth Games, 2010, India.

Their present client has names like the Unitech, DLF, Ambience Infrastructure, The Leela, The Marriot, The Hyatt and various prestigious hotels and Clubs.

TECHNICAL SOUNDNESS : People at PFPL are perhaps the most technically sound company proud to confirm that they have their own teams to install all their wood floors so that they can take warranty of their entire product and stand by their installed product. They do not BELIEVE

IN TRADING OF WOOD FLOORS since they fully realize that the material per se has no value for the client but the same is only enhanced once it is installed. Wood flooring is totally a value addition product. They as a company attach 50% value to the quality of the product and the balance 50% to the sound installation technique.

This confidence has been incorporated in the entire marketing and supervision teams by the efforts of their **Marketing and Technical Director** who is perhaps the only one in INDIA to have a **Technical Masters Degree from the National Wood Flooring Association, USA(NWFA)** because of which they view wood flooring from an entirely different perspective which is very beneficial from the point of view of their esteemed customers.

This unique company notion only enhances its constant endeavour in serving its clients and is yet another step to further strengthen the company's philosophy in providing 'A WOOD FLOOR THAT WORKS AND LASTS'.
