Sting Operation

The images in this montage are frames from video footage captured on a spy camera by Photo Editor Bandeep Singh and Principal Correspondent Mihir Srivastava. The woman in these pictures was contacted through an advertisement for massage and escort services in a leading newspaper. The aim was to show the easy availability of white prostitutes. Singh and Srivastava posed as sketching artists looking for nude models. The sequence of images shows a CIS woman making verification calls to her associate. She then undresses and poses in the nude.
