Glacialtech 5W LED bulb (Rs 1,334)

Though not the brightest of bulbs, it is the first of what promises to be a series of green bulbs. An LED consumes much less power than a conventional incandescent bulb or even a CFL. It is eco-friendly and lasts for 60,000 plus working hours—that's roughly six years of continuous use with skimpy energy consumption.

Samsung Series 6 LED TV (Rs 1,25,000)

Breathtaking colours and superb picture quality are some of the features this LED TV has. It is very eco-friendly and uses up to 40 per cent less power than a normal LCD and does not contain toxic compounds like mercury.

Apple iMac 27 inches

(Rs 89,900)

Apple knows how to stay in the limelight. This year it again attracted attention by introducing an iMac that has larger than HD resolution. Its 27 inches of screen space is also excellent for movies. The large screen size enables designers to work on it at ease. And don't forget, the processing machinery inside is top notch too.
