NEW CHROME LINED GRILL

STYLISH ORVMS

CHROME INSERTED SIDE RUB RAILS

TRAFFIC STOPPER

The new Grande MK II has been designed to make heads turn. From its macho stance to its rugged good looks, each and every styling detail has helped to create a truly unforgettable look. A new chrome lined front grill, chrome inserted side rub rails, sporty steel wheel rims and blinkers on ORVMs accentuate the slick exteriors. Then there's the large clear lens headlamp, cutaway air dam in the front, spare wheel tucked under the floor and the attractive tail lights that give it an intimidating street presence.
