

Bearys Global Research Triangle

INDIA'S FIRST PLATINUM LEED CERTIFIED GREEN BUILDING RESEARCH PARK

Borrowing an inspired leaf from the old Chinese proverb, saplings were planted well before the cornerstone of Bearys Global Research Triangle (BGRT) was put in place. Just a small example that illustrates the rare corporate ethos at the Bearys Group which draws inspiration from creation and nurtures a belief that God is in the details. Located in the proximity of ITPL at Whitefield, Bangalore, BGRT is modeled on the much celebrated Research Triangle Park (RTP), North Carolina, USA. Built on a 21 acre triangular park, it comprises five research towers. An optimal environment that will inspire occupants to reflect, collaborate and develop breakthrough products and services for the future.

PHASE I - 900,000 SFT READY FOR FIT OUT IN MARCH 2010

BGRT HAS MANY FIRSTS TO ITS CREDIT IN INDIA:

- First Platinum LEED certified Green Building Research Park
- First project to offer 91% floor efficiency
