

Pioneering Energy Efficiency

- More lumens per watt
- Reduced heat load
- Lower light power density

Pioneering Longevity

- Wide voltage compatibility
- Lasts 50,000 burning hours
- Low lumen depreciation

Pioneering Greener Environment

- No mercury
- Low carbon footprints
- Predominantly recyclable

Introducing PHAROX. The LED Lamp from Crompton Greaves.

The world is switching over to LED lighting for its high energy saving capability, pollution free attribute and handsome payback period. In keeping with this, Crompton Greaves introduces Pharox. It consumes only 5W and lasts for 50,000 burning hours, which maximizes profits. It reduces Carbon Footprints making it viable to earn carbon credits. Get long term guaranteed returns on your investment. Get Pharox.

Environmental Status Report

This new LED Lamp, Pharox, confirms the continuing environmental commitment from Crompton Greaves towards:

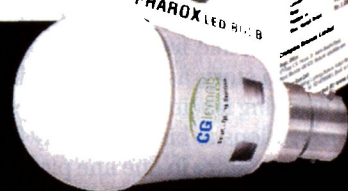

- No mercury
- Energy efficiency
- Reduction in carbon footprint
- Predominantly recyclable
- Long life

Power consumption

40W	5W

Lifetime in hours

1,000	50,000

CG collaborates with Lemnis to bring the latest LED technology under the CG Lemnis range of LED products.
