

# A NEW YOU.

Now available at **TITAN EYE PLUS.**

*Your spectacles make you look boring or uninteresting only because the spectacles you wear are boring and uninteresting. A little imagination is all it takes to turn something as functional as a pair of spectacles into a lifestyle accessory. Given the kind of choices available to you today – from shapes to styles to colours, getting the kind of look you want is easy. As easy as a trip to a Titan Eye Plus store.*

Titan Eye Plus, from the house of Tata, is a chain of world class optical stores that offer state-of-the-art clinical facilities, a unique browse-try-buy display and impeccable service. And the service isn't limited to spectacles.

Thanks to a unique collaboration with Sankara Nethralaya, India's premier eye care institute, the store personnel and optometrists are not only trained and qualified to conduct zero-error eye tests (offered, incidentally absolutely free of cost) but also to advise you about caring for your eyes.

In addition to in-house brands of frames starting at just Rs. 395, the stores stock a wide range of high-end international brands like Esprit, Tommy Hilfiger and Versace. The stores also offer branded lenses from Titan, Essilor and Kodak and contact lenses from Bausch & Lomb, Johnson & Johnson and Cibavision.

With so much choice, just how do you decide on a look that's right for you? Read on.

#### THE ON-THE-GO LOOK

*A hectic lifestyle calls for light, yet heavy-duty frames in titanium, aluminum or stainless steel. Design elements like cutouts and embossed temples, coupled with durable and light-weight lenses add an element of style.*

#### THE AGE-DEFYING LOOK

*Frames in sober, yet unusual colors like tortoise shell, gun metal and burgundy, can knock a few years off your face. Ditch the boring, old boxy eye-shapes for more angular shapes for men and soft cat-eye shapes for women.*

#### THE STRICTLY BUSINESS LOOK

*Classic shapes in sober colours can help make an impression, whether it's an informal chat in the hallway or a high-profile boardroom meeting.*

#### THE FUN & FUNKY LOOK

*Modern shapes like geometric designs in thicker, larger plastic frames in bright juicy colours go well with an active personality.*

#### WHAT NEXT?

*If you are ready to find a whole new you, all you have to do is find the store that's closest to you.*
