Watch your child at work in his / her classroom through the web.

Each room equipped with LCD's and interactive boards. The school principal of MBS who has over 20 years teaching experience in the UK and US. She believes in...

Constant and never ending Improvement .Children are a reflection of the world in which they develop. If that world is safe, full of strong relationships, predictable and enriched by conversation and good experiences, the child will grow up to be self regulating thoughtful member of the society.

The mission of the school is to challenge each child to reach his or her full intellectual, creative, spiritual and physical potential through a fully integrated curriculum. The aim of MBS is to equip the students to tread the untrodden path with dedicated discipline and internal motivation to take success in their stride. MBS International School has an architecturally beautiful and impressive school building with modern world class infrastructure comparable with the best in the country and abroad. It has very spacious classrooms with ergonomically designed furniture for the comfort of the children. The facilities include computer centres, which have been equipped with all advanced technologies. Their endeavour is to make education system more scientific, interesting and interactive. The talk and chalk teaching has been replaced with modern technologies with the use of OHPS, Multimedia, CD

Roms and other educational aids. The school has taken special care to provide indoor and outdoor sports including swimming pool at the school premises to ensure that the students remain physically fit and mentally alert. The school attaches great importance to extra curricular activities for balanced education. Special care has been taken to use only bio fertilizers for lawn and plants which are eco-friendly and harmless for children. The State of the art auditorium with the seating capacity of 300 provides ample opportunities to the students to display their skills and activities like dramatics, music, dance, debates and symposiums to mention a few. Career counseling, personality development, teacher exchange programmes with schools in the UK are few other high lights of the school. The global society demands individuals having a comprehensive outlook towards life. MBS international school endeavours to be true to its name where mind, body and soul amalgamate into one.

Little Legends MOST FUTURISTIC HIGH-TECH PLAY SCHOOL OF INDIA

"Let the child act in freedom from Inner Centre, not in bondage, to the World's Demands." – Donald Walter.

Little Legends does just that. Little Legends is a playschool in Paschim Vihar, New Delhi where legends are born... It is the most premium and high-tech playschool ever made in India. Built like a castle every Little Legend student is treated like a king or a queen.

Each class room is fitted with state-of-the-art technologies like a 120 magic wall, live surveillance systems through which parents can watch their wards from home along with Touch and Learn systems which encourage a healthy mindset for learning by way of play way methods.

A special dietician recommended midday meal with fruit and salad buffet is

provided for every child to pamper his taste-buds and to help him/her adapt to different types of cuisines. All class rooms are wonder rooms for kids with a different theme and décor. 1/3rd of the teaching in Little Legends is done by different cartoon characters much to the children's delight. Parents are given the opportunity to watch their children learn and grow through live video while sitting at home. This is a unique facility offered exclusively by Little Legends.

This school inculcates reading habits from a very early age and the school provides a mini library to every student by the time they leave the school by providing at least a book in a month. The school takes care of the mental, physical and spiritual development of the child by having a holistic approach towards early childhood education.

These little legends are provided a global platform by exposing them to the environment, culture and beauty of different parts of the world: by providing different culinary experiences, educational tools and interaction with people from different parts of the world. Little Legends plans to have exclusive summer camps to give an opportunity to non-Legends to become a part of the unique Legendian experience.
