

Vivekanand School A HERITAGE IN EDUCATION

Nestled in the debonair Anand Vihar of East Delhi, Vivekanand School takes pride in imbibing an amalgamation of the virtues of tradition and modernity since its inception in 1978. Sprawled in 4 acres, the institution houses about 5000 students and 250 teachers. The plant sown and nurtured 31 years ago by Mr. Yog Dhyani Ahuja. Enriched with interactive boards, multimedia rooms and a spectacular auditorium of seating capacity of approx 700 persons, Affiliated to CBSE, Vivekanand has committed to the Comprehensive Continuous Evaluation proposed in the grading system.

The meticulously designed curriculum flouts the norms of rigidity and uniformity as 'too idealistic' and is structured to meet the needs of students of different aptitudes. Every initiative of the zealous teaching faculty aspires to take along 'all' and not 'a few' on the path of achievement through an excellent methodology of power point presentations and smart board worksheets. The Friday activities are thrilling with the versatility of the issues involved- Best out of the waste, theme based paintings, elocution, quizzes, group discussions, theatre are just to name a few.

Our students have done us proud by achieving high percentage in the Board Exams in X and XII. The year 2009 saw nine students' selection in the

prestigious Indian Institute of Technology. In 2006, our student Aditya Prakash stood 1st in DPMT. Our student Shruti Saxena stood first in Delhi in the Science stream in CBSE boards (2007 batch).

Constant and specialised interactive sessions- 'Prayas' – special meeting with parents of students who are comparatively weaker and need additional help, apart from regular PTM's ; introduction of technology with interactive boards and multimedia centres, the e-learning facility, interaction with the parents through daily SMS's – the school provides a platform to students to excel in their respective talents and fields of interest.

There are regular intra and inter school sports contests in the fields of Basketball, Cricket, Football and athletics which circulate an adrenaline rush in all aspirants.

There are round the clock aptitude tests in different subjects like Technowhiz, Mathelogs etc. Scholastic festivals ground the basics and applications in various subjects. Zest- An English Literary Week, Commerce Fest, Nexus- Science Exhibition celebrate the spirit of education.

Such and much more is contained in the curriculum capsule of Vivekanand School which makes it the most solicited destination for every student.

Scottish High International School RISING BEYOND HORIZON!

Mrs. SUDHA GOYAL
Principal

In my 25 years in education I have often seen people relating discipline with harshness. That is a myth to be erased. Self actualization, motivation, sustained guidance backed with impressionable exemplary behavior by the trainer themselves is the key to a disciplined and progressive school....

A visit to the Scottish High International School is a revolution of standards. The staff and students burst in enthusiasm and energy with confidence personified. No wonder, the compulsory long day boarding for all, brings about a change in the way of life of these Scottish Highlanders.

A stringent academic focus in complacent the national curricula of ICSE/ISC and the international curricula of IGCSE/IB, this world school pays an equal attention to sports, co-curricular clubs, grooming, parade training, NCC, leadership and counseling. So much so that even a few children with special needs are integrated into mainstream classrooms.

Situated in Gurgaon the school has children coming from all across the NCR and large blend of international students as well. "Building personalities -and not just people", this school gives a firm grounding to academic fundamentals as well personality growth. With eminent educationist like Mr. Shomie Das and sportsman like Mr. Milkha Singh on the Board of the School, highly qualified and experienced faculty from the best known schools in the country and abroad, the school's modern technology based infrastructure gives the right platform to the students and the opportunity to imbibe a carefully designed curriculum.

"...Despite tremendous external pressures we have resolved not to take the twenty sixth child in a class....", says Mrs. Sudha Goyal, the School Principal. She believes that a strong democratic prefectorial systems and the well established clan system of parent, teacher and students, if nurtured with care and sustained guidance can self discipline the school into a mode of 'Discipline without harshness.'
