

ARE VIDEO GAMES BECOMING YOUR CHILD'S ONLY SPORT?

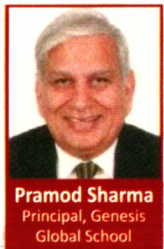

When your child is spending his after-school hours at home, someone else's child is mastering his spin bowling on our cricket pitch. While your child is getting addicted to video games, someone else's child is making football his career option. When your child is stuck in 40 mins. of traffic for a 1-hour music class, someone else's child has completed two 45-mins. sessions of dance and maths in our extended day school. When your child gets home and starts with the homework, our students are already done for the day... because at Genesis Global School every child gets the time and the space to excel!
