

The Venkateshwar Global School

IGNITING YOUNG MINDS ...

The Venkateshwar Global School (VGS), Sec-13, Rohini, stands for the three golden keys - values, glory and strength. The VGS stands committed to ensure in its students, the imbibing of rich social and traditional values, so as to evolve as socially productive citizens of the country - mentally strong and morally upright. The school is the newest entrant to the reputed Venkateshwar Group of Schools and has a strength of over 900 students.

The USP of the school is its fun filled, stress free and activity based teaching methodology. Equipped with the latest multimedia courseware, LCD screens and internet facilities, teachers prepare Powerpoint and Smartboard presentations on various topics, to effectively deliver the lessons in the class. The school follows the grading system with the Comprehensive Continuous Evaluation approach.

Sports, yoga and other games form an integral part of the school's curriculum, with special coaching classes for activities like lawn tennis, taekwondo and skating. The swimming pool will also be operational from March 2010.

The school has also begun with an 'Adopt a child' programme, in which children who require extra attention in the area of academics have been adopted by particular teachers. The VGS believes in the beyond books' concept. One step towards implementing this concept is the school's 'learning corridors' activity. Bright, colourful, subject content

related, meaningful boards greet you as you walk along the corridors of the school. Documentation of the children's work is also done wherein the work of the students is displayed in the classrooms.

The VGS sensitizes its children towards their societal and national responsibilities and respect towards each others' personal and religious beliefs. The school has also launched a vigorous drive in the name of 'LET'S DO OUR BIT' for creating awareness about the importance of environment conservation.

The VGS, has also been selected by the British Council for its prestigious UKIERI Project. The UKIERI school cluster partnership programme offers grants to schools in UK and India which support collaborative curriculum projects, exchange visits and professional exchanges between schools participating in the project.

St. Cecilia's Public School

EDUCATION-TIMED FOR TOMORROW

Every child has, within him or her, all the essential ingredients that facilitate true learning and meaningful education. It is only that attitudes and aptitudes may differ from child to child.

This fundamental principle is the crux of St. Cecilia's Public School, Vikaspuri, New Delhi. Established in 1978, it has, over the last 31 years, emerged as a leading senior secondary school with strength over 2100 students.

The strategically located school campus, in the heart of West Delhi, exudes an uncommon authenticity of a temple of learning that is as exhilarating as it is appealing. The imposing four storeys compact but spacious building houses all essential indoor facilities and support services. Skating, basket ball, volley ball, football, cricket and badminton, etc.

On the academic front, the school, for years now, has been a trend setter. Apart from achieving 100 percent success rate in class XII Board exams successively, for the last five years, the school toppers in science and commerce streams have held their sway among their contemporaries from the CBSE affiliated schools. "The all pervading academic ambience here does not only motivate the students to learn, but also how to learn in a manner that is

exciting, relevant, meaningful and memorable" says Mrs. R. Bhumra, the dynamic school principal and herself a state awardee.

The school looks beyond the academic dimensions for their social, emotional and psychological nurturing. Instilling self-discipline among the students through regular exposure to moral and social values is high on the school's agenda for their holistic development.

The emphasis on extra-curricular activities and sports, Art and craft, music and dance, dramatics and debating, are a regular feature. The focus is on talent exposition, skill development and building leadership qualities. Besides, making it to the finals of National Children's Science Congress repeatedly, the strong oratory and artistic skills of the students have seen the school enter the hall of fame, time and again.

"The multi-variety curriculum, that provides an adequate and vibrant platform for inquisitively, self assurance and self-expression and exponential growth of highly receptive, nascent minds, is our biggest strength," confides Prof. Sewa Singh, Chairman of the school and an articulate academician himself.
