

THE CLASSIC WATCH

The Oyster Perpetual Datejust is the ultimate reference chosen by those who believe in timeless elegance. Iconic from the moment it was introduced in 1945, it was the first wristwatch to display the date and, in 1953, to feature the famous Cyclops lens over the dial aperture. Now available in an even more distinguishable 41 mm size, the Datejust II perfectly completes the Datejust collection. A collection that has become an incontestable symbol for those wishing to continue the tradition of elegance. Visit ROLEX.COM. And explore more.
