

THE ULTIMATE IN WRITING TECHNOLOGY

We call "V system" is adopting direct ink filling system and we call this family "V series". Pilot's high-quality liquid ink are injected directly into pen barrel. This system brings stable ink flow and provides smooth writing from the first drop to last drop for all consumers worldwide. By combination of big ink controller (ink feeder) based on fountain pen's technology under Pilot brand and ATT(Air Tight & Trough) system cap, V series is protected from ink leakage and continued proper ink flow.
