

Man and his home has been a case for emotions from time immemorial and today as we stand real estate continues to play on man's emotions whether as "shanta" in beautifully manicured terrace garden or as "adbhuta" in an intelligent energy efficient office tower or as "bhayanaka" when a newly constructed flyover develops cracks in 7 days of commission.

■ Advant Navis Business Park – An Intelligent Green Building

As the name suggests Advant – Navis which means Ship in Latin, the building is made in a shape of a ship and is designed in a very innovative manner wherein two interconnected towers going up to 84 meters. Tower A is 15 floors high and has a super area of 490,000 sq. ft while Tower B reaches 13 floors, spanning an area of 390,000 sq. ft. The towers are connected by sky bridges on all the floors to provide very large contiguous floors plates ranging from 30,000 to 62,000 sq. ft. A three floor high atrium is placed right in the heart of the towers and provides spectacular views of the bridges. First phase of the Business Park has already been sold out and the second phase of the construction has already started. Advant Navis Business Park is the only project in Noida which has the approval for both selling and leasing of the space.

Advant Navis Business Park is very strategically located, about 6 minutes non – stop drive from DND toll road. A hub for multinational firms for outsourcing services, the site is conveniently placed on the Noida Expressway, offering excellent visibility and accessibility. This new facility, conceived and designed by the Advant Group, is a strategic initiative to provide a one – stop solution for hybrid global delivery services.

Advant-Navis Business Park has been conceptualized as a project incorporating the latest technologies for sustainability, intelligence and maintainability. Advant Navis Business Park is aiming to achieve prestigious Gold rating under LEED from US Green Building Council, which will make this project as one of the most environmental friendly projects envisaged right from the design stage and will be one of the few commercial projects in India to achieve LEED Gold certification. This project reinforces our commitment to sustainable development through cutting edge green technologies to deliver eco friendly projects. The towers are designed to cover only 19% of the ground leaving rest of the ground area for shaded landscape courts with water bodies & plants, which helps to reduce the ambient temperature.

■ Jaypee Greens Sport City

Jaypee Greens – a division of Jaiprakash Associates Limited has announced the launch of India's first Sports City on the Yamuna Expressway in Gautam Budh Nagar.

The Jaypee Greens Sport City offers a unique model of real estate, with both residential and sports facilities together. With this unique concept, the arena connects sports to life, and is the first-of-its-kind venture in the social infrastructure sphere of India.

Sports City, is positioned for everyone who appreciates luxurious surroundings and spaces equipped with sports and recreational facilities. Sports City will be self contained with every essential element of urban living in style and comfort. The City

will have Motor Race Track spread over more than 875 acres.

The Sports City will have various Residential Districts which would be built by the company in phases. The first District will be the Country Homes, with sizes varying from 200 to 4000 sq mts. This will be followed by Lake District with high, mid and lower end apartments. The Commercial Business District within the City will be the first to be laid on over 182 acres of land with well-equipped and elaborate financial, recreational and civic amenities. This Sports City will have features like uninterrupted water and electricity supply from Jaypee Group's own power generation plants, round the clock 3 tier security, super specialty health facilities and educational facilities ranging from Kinder crib to professional levels.

■ 3C Company launches green residential estate

The 3C Company launched India's largest green residential estate - Lotus Boulevard. The 3C Company has planned the 40 acres housing project with an outlay of Rs 1,550 crore. The first part of this landmark project, spread over 30 acres, has been funded jointly with Red Fort Capital, the leading international real estate private equity fund.

The 3C Company has created a niche for itself in creating green wonders. Under the 3C umbrella, this is the only team in Asia which has to its credit two platinum rated LEED certified green buildings namely, the Wipro Technologies in Gurgaon and Patni Campus in Noida.

■ Amrapali Group

Amrapali Group has always believed in constantly breaking new grounds to scale challenging heights. The Group's Endeavour to address the ever growing demand of urban living finds expression in its elite Residential, Commercial, & Hospitality projects. After making a mark in Delhi & NCR with prestigious projects, the Group is now coming up with its landmark projects in Rajasthan, Uttar Pradesh, Bihar, M.P, A.P, Kerala, Karnataka & Maharashtra.

Focusing on Greater Noida, Indirapuram and other East Delhi locations, the Amrapali Group has completed projects spread over more than 100 acres. What makes the Amrapali group stand out is its steadfast dedication to quality and efficient service.

In a short span of time, Amrapali has developed luxurious residential complexes, townships, family entertainment centres, offices and commercial complexes. With its unmatched expertise in residential development, Amrapali has developed six ultra-modern residential colonies in and around Delhi. The best amenities for comfortable living are included in the group's projects – splash pools, modern club facilities with swimming pools, gym, sports facilities and spaces for community activities offer the best aspects of community living.
