

Transforming Learning

*"Interaction with the students of
Indraprastha Schools has left me spellbound."*

-Smt. Sheila Dikshit, Chief Minister, Delhi

Indraprastha Schools inculcate fortitude and fearlessness for a noble cause in students under their wings. The confidence that each learner exuberates shows the dynamism of young scholars in this chain. They are on the move with a resolve to learn without fear. Flow in all activities in these schools is free and fair. Campuses are replete with vibrating effervescence.

Our children bear testimony to the fact that learning is not only about classrooms and books, it is much more and beyond that. Humility, respect for elders, sobering discipline, perfection, and confidence are some of the benchmarks of our students. The faculty, on their part, is committed to grooming and developing the students as responsible and successful citizens of tomorrow.

Indraprastha schools have risen fast to be among the top known schools of the region. We have been successful in establishing ourselves as a leading brand with moral, social and ethical values being our hallmark. Our students are the torchbearers of technology and traditional values.

Learning begins without any conscious effort at Indraprastha, without any affected style and without any laboured lectures. The teachers and the taught learn through whispers, through slow capers and drawings by themselves. The concepts are learnt without knowing that they are being learnt.

Each classroom is fitted with CCTV and television, an addition to it being air conditioned. Since, the way you decide to think has a dramatic effect on your chemistry, and on your physiology, the Mathematics, Science, Social Science, Computer and Language Labs prove to be the mental gymnasiums for the learners. Library plays an important role in the intellectual training of the child, so library at Indraprastha is a place of learning. Our project DEAR - Drop Everything And Read inspires students to learn.

Scores of indoor as well as outdoor activities which include swimming, skating, tennis, basketball, volleyball, badminton, handball, cricket among others, have dedicated trainers and coaches.

"I am inspired to see students of Indraprastha involved into different activities for protecting the environment and mother earth." - H.E. Mr. Mookhesswur Choonee,
High Commissioner, Mauritius High Commission
