Children, more prone to cold or falling sick due to lack of physical activities.
TNN, Times of India

I was lucky to be in a boarding school and played every game. Life for current children is cruel. There is simply no childhood.

YOUR CHILD MAY NOT MISS HIS CARTOONS, BUT HE IS MISSING OUT ON LIFE

Statistics have shown that children, today, are addicted to violent video games and TV due to lack of playgrounds and exposure to sports. This is, indeed, very disturbing to you as a parent and to us. At MPS, we believe that a child needs to develop mentally as well as physically. Apart from giving a strong academic foundation to your child, we believe in giving your child acres of space to pursue his sport and live his dream of making it big like his role model. If you are concerned in giving your child a holistic life, call us or visit us.
