

Ganga International School

FIRST CHOICE FOR BOARDING SCHOOL IN DELHI

CHARU KAPOOR
Principal

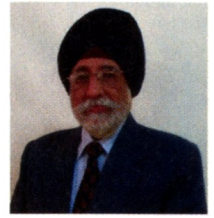

The Principal of Ganga International School is Ms. Charu Kapoor. She has done her Post Graduation in Mathematics with specialization in Operations Research and has a degree in Education. She has had a vast experience in teaching Mathematics. Ms. Kapoor is a recipient of many prestigious awards granted to her for her contribution in the field of Education. She has had an international exposure in the field of education while she was in US for an

Educational Exchange Programme and learnt about the functioning of various educational systems and very importantly the integration of education of specially abled children.

Under her guidance the school has witnessed tremendous all round growth in qualitative terms. It has grown from strength to strength in the field of academics, sports and extracurricular activities not only nationally but also at international levels. In accordance to her vision of a good school, GIS lays emphasis on value based education, technology based learning, scholastic and co-scholastic activities and character development. The mission is to develop a young generation capable of meeting the challenges of the modern world with courage, conviction and honesty.

Excellence in education, world-class standards and adding value to life are the hallmarks of schooling provided at GIS. Education is no longer a book affair and universe is the university for those who care to observe and learn. We encourage our students to push the limits of their minds and believe in giving them an edge to face the competitive world. No effort is spared to shape, chisel and sharpen their minds and for this purpose, we lead them to think out of the box.

We create our entire world by the way we think. Every thought, word and act is a reflection of how we see and expect the world to be. At GIS, we believe that the young boys and girls have a long way to go and no journey, much less the journey of life, can be comfortable even with the best of physical comforts alone. What they need is harmony of mind, body and soul and for this, nothing can be more fruitful than guiding them to imbibe the wisdom of the wise into their daily life at the School. Besides the highly congenial academic environment, we channelize the energy and creativity of the youth and provide the beacon and help the students to organize themselves effectively, face the challenges with confidence and come out as well-informed responsible individuals.

AJS SAHNEY IAS (Retd.)
Vice Chairman

Strength School

DISCOVER A NEW CHILD IN YOUR CHILD

Your children are winners and this is believed by none other than the Director of Strengths Theatre School, Mr. Sanjeev Datta himself. At Sanjeev Datta Theatre Course, we do not mould children into famous actors or theatre personalities. But what we have been sincerely upholding is their self confidence. The primary objectives of the course are to improve confidence, voice & speech, concentration, observation, expressions, communication skills and to develop personality, positive attitudes, inherent potential. Since 1998, we have constantly devoted ourselves in strengthening their self confidence from eroding and after all these years and with more than 10,000 students and their elated parents our efforts have been there for all to

see. With centres spread all across Delhi & NCR.

Researches have proved that 90% of children suffer from shyness, hesitation and lack of confidence. Yet surprisingly, at Strengths Theatre School, such hindrances and inhibitions are some among many negative traits in their nature which children lose as soon as they step into our fold. Kids, as early as 2.5 years old are enrolled. This emulation of our students is mainly due to the unique technique in transforming them. This technique known as, Theatre and Techniques in Education (T & TIE concept) is a pioneering concept based on Mr. Sanjeev Datta's personal experiences with theatre and its resourcefulness in our lives.

Mann Public School

ACRES OF LIFE

Mann Public School is a premium educational institution spearheading school education in Delhi for the past 20 years. Located near Rohini, the school was started in 1989.

Mann Public School is amongst the very few schools in India which has been certified with ISO-9001:2000 and ISO-14001:2004 coupled with the membership of elite body of boarding schools in India - Indian Public Schools' Conference (IPSC). MPS has recently been conferred the membership of USO (United School Organization), an initiative to promote the teachings of United Nations. MPS is also an authorized centre for University of Cambridge, ESOL Examinations.

MPS, provides enviable infrastructures, like a Wi-Fi campus, Air-conditioned hostels for boys and girls, Air-conditioned Labs and Library, a multimedia knowledge centre, labs for linguistic and languages, RO drinking water system etc. Well laid out playgrounds are also available for outdoor games and sports

like football, basketball, lawn tennis, hockey etc. MPS is also coming up with an international standard swimming pool which will be operational from the next season. The school has provisions for on campus professional coaching for various competitive exams like IIT, PMT and NDA.

The Director of the School, Mr. Joginder Singh Mann, has authored his first book on 'Life in Boarding School'. The book titled "Lets pray before our meals" is a myth shattering description of life, behind the high walls of boarding schools from a person who was a resident in one of the famous boarding schools of the country.

According to Cdr. VK Banga (Retd.), Principal, Mann Public School, "We strongly believe in the fact that school education is not just about books, we encourage discipline and creativity among our children. School days are golden, but to be really so, fun and work must be synchronized."
