

IF ONIONS MAKE YOU CRY, IMAGINE WHAT UV COULD BE DOING.

Your eyes react to and evade the mildest of threats spontaneously. But as they cannot see the sun's ultraviolet (UV) rays coming, they are totally defenseless against them. What's more, your eyes are exposed to the harmful UV rays every day. Over time, the effects of UV on your eyes can be hazardous. Fatal even. Protect your eyes with Transitions lenses. Everyday spectacle lenses that cut out the UV rays completely by adapting to the changing light conditions whether you are indoors or outdoors and they provide total comfort. Talk to your optician and insist on Transitions lenses, so that your eyes can see a better today and tomorrow!

PROTECT YOUR EYES WITH
Transitions®

Know the extent of UV threat to your eyes today. SMS 'UV<SPACE><NAME OF YOUR CITY>' to 56006
