

LEISURE WEAR

THE LINEN LOOK

➤ Relaxed all day dressing

Linen is 'the' fabric choice for the season, making it the perfect material for shirts.

Half sleeves or full, the look this season from

Park Avenue is all about linen shirts in their myriad avatars.

One of the best properties of linen is its ability to help you stay cool and dry in re-

ally hot and humid weather. For an informal look, a short sleeved linen shirt looks great when teamed with chinos, jeans and even a pair of linen drawstring pants. A full-sleeved linen shirt

works superbly with a linen suit for a formal occasion.

Park Avenue's linen range has an easy to iron (ETI) finish which gives you a fresh and crisp look for the day.
