

**Draught 5.1 m Displacement 5,900 tonnes Cost Rs 2,300 cr Crew 250**

### Electronic Warfare

### Surface Search Radar

MR-670 Fregat 3D radar with a 130-km range

### Surface-to-Surface Missile

Twenty-four of the 30-km range Shtil missile carried in below deck magazine

### Anti-Submarine Rockets

Two 12-barrelled RBU-6000 launchers with a 4-km range

## Template for the Future

Over the next decade, the Navy plans to build 11 more stealth warships worth over Rs 50,000 crore

### Project 15A Kolkata class (3 ships)

Follow on series of the Delhi class destroyers. The 6,900 tonne warships are armed with Brahmos cruise missiles and have stealth features comparable to the Project 17 frigates. Induction between 2012-14.

### Project 15B destroyers (4 ships)

Follow on series to the Kolkata class. Features improved stealth, long-range cruise and surface-to-air missiles.

### Project 17A frigates (6 ships)

A new generation of frigates which improve on the P-17's stealth features.

### Surface-to-Air Missile

Eight vertically launched Klub anti-ship missiles with a 220-km range

### Medium Range Gun

Oto Melara 76 mm main gun in stealthy turret has a 30-km range and can fire 85 rounds per minute

## Composites >>

Radar Opaque Optically Transparent windows

Radar Absorbent Paint

Radar Absorbent Material

Radar Signature Suppression Screen

## Superstructure >>

Sloped at a 10-degree angle to bounce off radar waves. Hull signature reduced by 90 per cent.
