

IF ONIONS MAKE YOU CRY, IMAGINE WHAT UV DOES.

Your eyes react spontaneously to evade the mildest of threats. But as they cannot see the sun's ultraviolet (UV) rays, they are defenseless against them. What's more, your eyes are exposed to UV rays every day. Over time, UV rays harm your eyes and can cause severe eye diseases, even blindness. Protect your eyes with Transitions lenses: everyday lenses for your spectacles that completely cut out UV rays. Transitions lenses adapt to the changing light conditions whether you're outdoors or indoors and provide total comfort. Talk to your optician and insist on Transitions lenses, so that your eyes can see a better today and tomorrow!
