

You need doctors you can trust. You need dedicated nurses. You need attentive technicians. More than anything, you need people who will treat your baby like their own.

Someone like us.

We're the Cradle and we come to you from Apollo Hospitals.

Our aim: To provide a class of maternal and neonatal care that matches anything, anywhere in the world.

Our Records: Approx. 1000 bonny babies delivered to-date.

Our staff roster reads like the who's who of the medical fraternity.

But really, it's not the qualifications on our walls that make us the best place. It's what's in our doctors' hearts.

We believe having a baby is the single most spectacular event in your life. Naturally, everything we do goes into making it an unforgettable experience.

For instance, we offer a one-of-a-kind labour-delivery-recovery suite. You can now have your baby in the comfort of your own pretty room without being wheeled from one corner of the hospital to the other.

The best part is your husband never has to leave your side. Unless of course, you want something to pick on from the cafeteria on the premises. Or he decides to dart over to the in-house gift shop.

Finally, it may take more than two people to have a baby but it takes just one very good Guest Relationship Officer to take you on a complete tour of our facility.
