Genesis Global School

is the smart choice for
your child's future

Genesis Global School has opened with a new philosophy to redefine academics in India.

Mr. Bhure Lal, Chairman, Advisory Board – Genesis Global School, emphasizes “India is making huge strides in various sectors and has caught the attention of the world. In education too, India must assume leadership by combining the age-old practices of *guru-shishya parampara* along with the global practices in modern education.” This is no easy task but **Principal Pramod Sharma** is not an ordinary educator. He will measure up to the challenge and is confident that Genesis Global School will charter a whole new course for education that becomes a benchmark- education that will mean holistic and wisdom oriented learning.

Media educates more minds today than education itself, inculcating the finest understanding of this medium will be a part of the learning at Genesis Global School, and here the students will get guidance in a way that no other school can offer.

Dr. Alka Pande

The current syllabus of art seen in most schools today is not sufficient to either make students phenomenal artists or even collectors. Till students reach the point of choosing graduation in fine arts, there are no proper modules or even theory on the world's renowned artists; GGS will be changing that with a conscious move towards well-rounded knowledge in the field.

We approve the amalgamation of curriculums and we are sure the exchange programs will benefit both institutions. Also for higher studies, Genesis students will be preferred as we would have a confirmed track record of the student from early years.
