

DDG FOR TRANSFORMING REMOTE R

**Decentralized
Projects for Villages
Rajiv Gandhi C**

Objective:

- ✦ Delivering electricity to remote villages where grid connectivity is not feasible or cost effective
- ✦ Thereby transform the quality of lives of the village inhabitants

Highlights:

- ✦ Budget provision for subsidy of Rs. 540 Crore during XI Five Year Plan
- ✦ 90% of projects cost allowed as subsidy
- ✦ Largest and the unique scheme, first of its kind in India on such a large scale to take electricity to remote villages
- ✦ Focus on implementation of DDG projects through Renewable Energy sources such as Biomass, Wind, Solar, etc.

Project Development:

- ✦ Projects shall be sanctioned by Monitoring Committee of Ministry of Power
- ✦ Project developer will implement projects on **Build Operate Maintain & Transfer (BOO)**
- ✦ Project developer shall be responsible for distribution of electricity

Nodal Agency:

- ✦ Rural Electrification Corporation Limited (REC)
