

The Polo Safety and Toughness Test

1. Drive your Volkswagen Polo to a wildlife sanctuary.
2. Search for the meanest looking rhino.
3. Inch the Polo towards the above-mentioned rhino.
4. Take a deep breath and blast the horn as hard as you can.

• Or take our word for it.

The New Volkswagen Polo.

Renowned the world over for its superior quality and technology, Volkswagen brings the best of German engineering with the new Polo. It is built tough with a high-strength steel body, and its dual airbags along with an Anti-lock Braking System makes it one of the safest cars around. It also has 22.07 km/l* of fuel-efficiency, along with higher ground clearance and a perfectly designed suspension system. Of course, if you still have your doubts, take the ultimate test drive. And watch the new Polo live up to the test. **German engineering. Made in India.**

Terms and conditions apply. Accessories shown and features listed may not be part of standard equipment. Please visit your nearest dealer for further details. *Test results of rule 115 CMVR.

• 1.2L, 75 PS Petrol and Diesel engine • Tilt and telescopic steering wheel • Height-adjustable driver's seat • 60/40 folding rear seat
