

GENESIS - GIFTING MOTHERHOOD

Dr. Anita Gour, a specialist in dealing with infertility, after training and working in England for seven years returned to India. The purpose, that world class facilities can be available to the common man. Because of this reason only, in a time span of merely two and a half years, more than 6000 couples have benefitted from here. That's why, Genesis fertility centre is also considered to be North India's leading fertility centre. The secret behind our success has been the state of the ART Technology and the trust posed by you in us.

Biology is the least of what makes someone a mother, said Oprah Winfrey. But this holds only partially true for the couples who have benefitted from the Genesis fertility Centre, Jaipur and the efficient team led by Dr Anita Gour. Providing a comprehensive range of fertility treatments, the centre has become the epitome of happiness for many infertile couples. A few success stories:

Mrs A.S. (Jaipur) - When I met Dr Gour at Genesis Fertility Centre, I was 38 years old and was suffering from severe muscular dystrophy due to which I was unable to continue my pregnancy. I had already undergone abortion twice. Dr Gour suggested me to go for a surrogate mother, who delivered my twin angels on 15th September 2009. Dear Genesis team, it's because of you that I am experiencing the world's most beautiful feeling—motherhood.

Mr A.R. (Jaipur) - Married for 12 years, I and my wife were living an incomplete life without a child. That is when I approached Dr Gour was advised for ICSI (Intracytoplasmic sperm injection). The heavenly feeling we had when my wife got pregnant can't be described in words. She gave birth to a cute little girl on 13th July last year. All thanks to Dr Gour and her team at Genesis

Mrs & Mr M.D. (Assam) - I am from Assam. I traveled all around the country during last ten years. After many unsuccessful fertility treatments in various cities like Kolkata and Chennai, I came to Dr. Anita Gour at Jaipur. Beside getting pregnant, my perspective for the fertility treatment had changed. How could I think Genesis Fertility Centre enough for bringing happiness in our lives.....

Mrs T.K. (Gurgaon) - My husband was suffering from Azoospermia, a condition in which one has fewer active sperms in his semen. Dr Gour suggested him to go for TESA/PESA to retrieve sperms directly from testis with the help of a needle. Active sperms were collected which were enough for conceiving thrice. They have preserved the extra sample for my next child. I am very much thankful to Dr Gour for her help and guidance.

Mrs M.K. (Dubai) - Married for 10 years, I was suffering from PCOD. Even my fallopian tubes were blocked. Going from one doctor to the another and trying all possible ways, I realised that I was just wasting my money. Then one of the senior doctor told us about Genesis Fertility Centre, Jaipur. The response I got from Dr Gour and her team made me hopeful once again. I said yes to the IVF Treatment because there was no option left. But that decision changed my life forever. I become pregnant in the first attempt itself. I am very much thankful to Dr Gour for her proper guidance and care.

Mrs M.J. (Delhi) - With blocks in my tubes, I had tried all possible ways to conceive. Then Dr Gour advised me to go for test-tube baby as there was no other option other than IVF. It was because of this, that I am a mother now. Words are not enough to thank Dr Gour.

Mrs S.D. (Bangalore) - I had Pre-Mature Menopause (my FSH level was high) I was suggested to go for egg-donation. The treatment was done and I got pregnant in the first attempt. All thanks to Dr. Anita Gour and her team.

Mrs M.K. (Udaipur) - I read about Genesis Fertility Centre in a magazine and went for the IVF treatment. The day after my egg collection, they told me the eggs did not fertilise because the sperms were not of that quality. This was the reason I was unable to conceive for years. Then they suggested me to go for ICSI. Today, I am a proud mother and my son is the beautiful gift God ever gave me.

Mrs A.P. (Mumbai) - After undergoing the IVF treatment for five times and meeting failure each time, I was slipping into depression. But when I met Dr Gour, I realised I have reached the right place. The treatment I got here was different from what I got elsewhere. The transparency with which they work, and there helpful and caring attitude is commendable. The day I came to know that I was pregnant; I could not believe it. The credit goes to the Genesis team and especially Dr Gour.
