

Serve. twice without thinking twice

To stay healthy,

the first thing you need to do is eat nothing but healthy food.

And one way to do that is by choosing Nutralite.

It is cholesterol-free and has no trans fats or hydrogenated fats.

Nutralite is also low in saturated fats*,

has more of PUFA & MUFA* and is enriched

with essential vitamins A, D and E.

So go ahead, use it as a bread spread or

cook delicacies with Nutralite by

shallow frying, sautéing and baking.

And while eating, you need not

think twice about having a second

helping of your favourite food.

THE ALL
NEW
