

Sree Sastha

Institute of Engineering and Technology

Achieving excellence with compassion

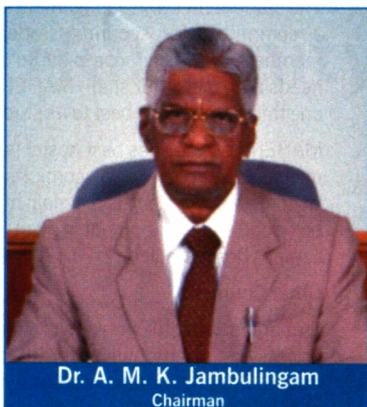

Like a bright streak of lightening, Sree Sastha has emerged out as an exceptional pedagogue among many institutions in the field of Engineering and has been producing internationally competitive engineers since 1999.

Administered under the wings of Sree Sastha Group of Institutions, Sree Sastha Institute of Engineering & Technology is the essence of hard work and zeal that a single man, Dr.A.M.K.Jambulingam had put in and foresaw the creation of skilled professionals in the future, who can bring a positive technological change to the society.

With no looking back since its inception, Sree Sastha Institute of Engineering & Technology has achieved tremendous heights under the able administration of its management and board of directors and also with the help of its perseverant and scholarly teachers who remain as the pillars of enthusiasm for the institution's merit.

One of the most distinguishing qualities of Sree Sastha is its nature of focusing students, not only for buffing their career skills but also in creating a healthy self that motivates them towards becoming better humans and productive citizens.

Stepping into its 12th year of its academic odyssey, Sree Sastha has been recognized for its eminence in education by both national and international education governing bodies. Sree Sastha has passed rigorous quality checks and has received the following scholastic recognitions.

Dr. A. M. K. Jambulingam
Chairman

Notable Credit in the Academic Field

- Accredited by National Board of Accreditation (NBA, AICTE)
- The Audit certification of TUV of Germany Issued ISO 9001 - 2000 certification.

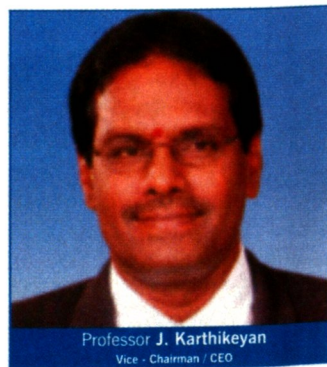

Academic Merits:

The best part of the institutions academic strategy is its ability to study the student's subject interest at the micro level and offer them the flexibility to choose their own subjects as per their professional goals. Students are then guided by trained professors who specialize in that course.

Also, the courses offered in the college are constantly upgraded to cope up with the latest developments and to keep the students at their academic edge. Apart from students, faculty are also specially trained both internally and off campus to gain special subject training to deliver the best to their students.

Sree Sastha is also in talks with other internationally reputed institutions to conduct knowledge exchange programs in its campus, which will soon be in effect in the near future. Exchange programs for MBA courses with Malaysian and Singapore University are also underway. Recently, Sree Sastha has signed a MoU with Oracle University for training Sastha students and has added one more feather to its scholarly cap.

Sree Sastha is very keen on obtaining only the best to its institution and there is absolutely no compromise on the qualification of its professors. Faculty who are the spine of the
