

with two way video conferencing facility.

Wi-Fi enabled campus includes faculty residences, three boys and two girls hostels accommodating over 1200 students. Hostels have a library, TV room, canteen, internet, general store, well equipped gymnasium as well as in-door and out-door sports facilities.

Intellectual property, which is reflected by the caliber of faculty, is a strong point for AKGEC. The present faculty strength is about 150, of which most senior faculty members are former professors or alumni of IITs. The Director, Dr R.K. Agarwal is a B.Tech from IIT, Kanpur, MS from C.I.T., Cranfield, U.K. and Ph.D from IISc, Bangalore. With such a strong intellectual capital, the college fosters and encourages a teaching methodology that has both a theoretical and practical approach. The Chairman, Shri Ashok Pal, an engineer and eminent educationist, says, "The college milieu encourages every student to develop respect for established norms and values and at the same time understand the importance of technical knowledge in human development."

There is continuous college-industry interface. Special efforts are made to groom the students to meet the standards of the industry, both in technical knowledge and soft skills. Interactive seminars on emerging technologies and personality development programmes are arranged to provide wide ranging exposure to students. The college is part of the Campus Connect program with Infosys for training students in accordance with the needs of the Industry. The college also conducts specialist courses for CAD packages like Pro-E and CATIA V5.

During the current academic year, over 500 students have been placed in reputed organizations like Infosys, HCL Technologies, L&T, L&T Infotech, Hyundai, Wipro Technologies, Jakson Engineers Ltd., NTPC, IBM, Indian Air Force and the Indian Army.

INTALKWITH
DR R.K. AGARWAL
DIRECTOR

■ What are the key strengths of AKGEC?

The main ingredients for quality education are competent faculty, proper infrastructure, committed staff and an inspiring leadership for effective, efficient and synergistic use of these resources. AKGEC is a confluence of all these factors. Also, our innovative approach to academics and our intellectual property are our key strengths.

■ Having reached the top position in U.P., what are your plans now?

There is no limit to excellence. We believe in setting audacious goals and infusing fresh ideas to achieve them. Our objective is to raise the overall academic standard as well as to bridge the gap between academic curriculum and industry requirements. The college is planning to expand the existing M.Tech. programmes and also promote industry oriented projects, R & D activity and industrially relevant training programs through its Centre of Relevance and Excellence supported by Department of Science & Technology, Govt. of India. These initiatives will produce globally competent and employable engineers who can match the requirements of fast growing industry.

■ What is the measure of AKGEC's credibility?

Consistently excellent results and ever improving placements are the true evidence of our success. Past admission trends through UPTU counseling clearly indicate the perception and preference of students for our college.

College receives the first Academic Excellence Trophy for the best Engineering College in UPTU from H.E the governor of UP in 2009.
