GNA INSTITUTE OF MANAGEMENT AND TECHNOLOGY SETS UP CENTRE OF EXCELLENCE WITH PTC

GNA-IMT is an institute which has believed in continuous innovation. Developing and evolving consistently we have been able to offer a unique blend of academic excellence and practical expertise, promising to prepare our students for tomorrow and place them far ahead of competition. Our courses employ current technologies, the most up-to-date syllabus and automatically position our graduates and undergraduates to qualify for the best jobs across multinational corporations and industrial houses. GNA-IMT recently also partnered with Parametric Technology Corporation, (PTC)

[(Nasdaq:PMTC)] to set up a Centre of Excellence (CoE) at the Institute at Phagwara to train engineering students on Pro/ENGINEER® software. GNA-IMT is among of the leading CAD/CAM institutes in north India with backup of GNA Group of Industries (Foremost Automotive industry in Asia). GNA-IMT is also providing other professional courses like MBA, BBA, BCA, Multimedia Technology, and CCNA. Institute is affiliated to Punjab technical university, Jalandhar and ISO 9001:2008 Certified. For more info about GNA-IMT visit: www.gnaedu.in

PTC is a leading global company providing discrete manufacturers with software and services to meet the globalization, time-to-market and operational efficiency objectives of product development using PLM and CAD solutions. PTCs Pro/ENGINEER is the industry's leading integrated 3D CAD/CAM/CAE software and Windchill is the leading content and process management solution. For more information on PTC, Please visit www.ptc.com

This association and partnership provides GNA-IMT with a platform to develop highly advanced departments of excellence in the areas of CAD/CAM and PLM technology. GNA-IMT aims at developing managers and technical professionals to face up to the challenges of modern industry and with the setting up of the CoE with PTC we hope to excite and inspire the students of GNA-IMT to pursue engineering-related careers and eventually become global engineers. The CoE at GNA-IMT will provide high quality training as per industry standards and the PTC certified master trainers will provide training to engineers on curriculum and course material developed and supplied by PTC. PTC will also certify engineers, upon successful completion of the courses.

Training on Pro/ENGINEER and Windchill will enable engineers and designers with the skill to create innovative winning products as well as enable them to understand the significant role content and process management play in developing a global product. The training duration for Pro/ENGINEER is 120 hours and so far we have trained over 150Q students.
