■ Our Mission

Our Mission is to prepare the finest technocrats the world has seen. Our foray into the world of engineering & technology is a means for facilitating higher education, training & research activities. We aim to take the creativity of the young mind to its pinnacle. Our mission to impart quality education in Engineering and to produce highly competent Engineers who can contribute to the task of nation building, To promote research, development and consultancy in collaboration with engineering industry and business houses, To provide knowledge and technique for integrating technology with management and to provide cost effective business solutions, To stimulate creative thinking and inculcate a spirit of leadership, entrepreneurship and solution providing amongst the students, , To provide students an in-depth knowledge of their discipline, accompanied with critical thinking skills, laboratory skills and problem solving skills.

■ Our Policy

We believe in the policy of meeting student's satisfaction, by continuously reviewing the quality of education through regular reviews and enhancement of skills of all employee by regular training and updating of knowledge.

LIET provides excellent quality infrastructure. This commitment is reflected in the investment made by the institute in providing facilities to students in terms of laboratories, equipment, library, books, sports, transportation and everything it takes to create an excellent environment for learning. The campus boasts of in-house facilities like state of the art labs, spacious classrooms, air cooled separate hostels for girls and boys, mess with hygienic food, college canteen, health care center, gym, squash, tennis etc to cater all necessities of the hostlers and the staff. Self-sufficient captive generation of power ensures uninterrupted power backup for the entire campus.

LIET is an All India Council for Technical Education (AICTE) approved institute

LIET is affiliated to Rajasthan Technical University (RTU)

It is a A+ Grade University

**Admission to the following courses is open in June - July of every year
LIET offers the following Graduation courses**

S.No.	Discipline	Total Seats	RPET Seats	AIEEE Seats	Mgt. Seats
1	Electronics & Communication Engineering	120	84	18	18
2	Computer Engineering	120	84	18	18
3	Mechanical Engineering	60	42	9	9
4	Electrical Engineering	60	42	9	9
5	Information Technology	60	42	9	9
