LSR ENCOURAGES ITS STUDENTS TO THINK OUT OF THE BOX

slipped from fifth to the eighth slot. Loyola College, Chennai, which had stuck to the number one spot for several years, slipped to number two this time. St. Stephen's College and Miranda House are the other two colleges, apart from LSR, from Delhi University that have made it to the Top 10. Despite coming in second, Loyola remains one the finest colleges in the country because of its emphasis on professional and skill oriented knowledge.

Loyola's arts stream includes unique courses such as human resource management, medical and psychiatric social work. "We offer a large number of optional and skill-based courses when it comes to the arts stream. Our curriculum is not bookish or exam-oriented and we want to prepare our students to meet emerging economic challenges," says Reverend B. Jeyaraj,

principal, Loyola College.

Its department of foreign languages trains more than 1,000 students every year. Courses such as socio-linguistics, communication and leadership, European literature in translation, folklore, English for copywriting, creative writing and English through mass media are unique to the college.

The college has signed 37 MOUs with foreign universities and institutions in the last year and the faculty endeavours to produce global citizens. "Students from the rural and economically poor background are given opportunities to develop leadership skills. We ensure that students, irrespective of their backgrounds, are given equal placement opportunities," says Jeyaraj.
