

The Innovation University for Tomorrow

Powered by Innovation

'Innovation' is not just another buzzword at UPES.

On the contrary, it is ingrained in our very DNA.

Being innovation's brainchild, our commitment to the environment is only a natural choice.

The UPES Staff Car is not only powered by an engine modified in-house, it also runs on a Biodiesel blend produced in our own Biofuel Lab. Further, a 100kW Solar Power Plant under-installation on-campus, is just a part of the initiative towards reducing our carbon footprint.

Just one of the many innovations at UPES

University of Petroleum & Energy Studies

Campus Energy Acres, PO Bidholi via Prem Nagar, Dehradun 248 007 (Uttarakhand) India

Corporate Office Hydrocarbons Education & Research Society, 3rd Floor, PHD House, August Kranti Marg, New Delhi 110 016 India

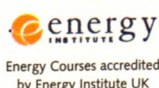

Accredited by
