

EDUCOMP RAFFLES

FORAYS INTO MANAGEMENT EDUCATION

organizations to next level of growth.

Educomp Solutions Limited is a globally diversified education solutions provider and the largest education company in India having presence in Canada, Singapore, Sri Lanka and United States. Raffles Education Corp., Singapore operates three universities and 35 colleges in 12 countries. They have been providing design and management education for 20 years and graduates are keenly sought after by employers around the world.

The two years full time program will have specialization in Marketing, Finance and Design Management. Students have an option to do a semester in RCDC Australia or Singapore. Upon successful completion of the program, the students would be awarded an International degree recognized worldwide.

The students will be trained by a team of highly qualified faculties from around the world sharing their Management experiences and best Global Practices.

The course is based on International curriculum and will cover contemporary topics like Global issues. Regular visits to corporate, interactions with top working professionals, undertaking projects, arranging discussions on international case studies will help them become Day-One productive.

The increasing complexity in the global business environment and the blurring of international boundaries have created complex challenges in the corporate world. This requires professional managers proficient in global processes and practices.

The growing demand for such professionals in corporate across the sectors has lead Raffles Education Corporation Limited, Singapore, and Educomp Solutions Ltd., to envisage and design a unique Dual Masters Program - PGPM + MCom. This will help create a pool of Global Managers to lead
