

DTU "A Tech-University inspired by talent and powered by innovations"

DELHI TECHNOLOGICAL UNIVERSITY

(Formerly Delhi College of Engineering)

Shahbad Daulatpur, Bawana Road, Delhi-110042

Phone : 011-27871018, Fax : 011-27871023, www.dce.edu

Annapurna automated dispensing machine developed by DTU

ICARUS Unmanned Aircraft System created by the students of DTU

Mini Baja designed & developed by the students of DTU

- **Innovated curriculum** for UG & PG academic programmes.
- **Strong emphasis on Research & Innovations** - Thrust areas of R&D are Biofuel and Clean Energy Technologies, Future Automobile Solutions, Nano Scale Devices and Photonics, New and Smart Materials, Conducting Polymers, Broadband on Power lines, Info Security and Network Management.
- MoUs with **National Physical Laboratory** for introduction of research-intensive, industry relevant master and doctoral programmes, with Intellectual Ventures for strengthening IPR and support for ideas for technology incubation, and with **Lockheed Martin Corporation** for development of Next Generation Aircraft System. Further, **Freescall Semiconductors** and **ST Microelectronics** have offered to set-up laboratories at DTU, among others.
- **Excellent placements** in reputed national and international companies such as TCS, Alstom, BHEL, NTPC, Tata Motors, Microsoft, Motorola, Sony India, Schlumberger, Freescall, STMicroelectronics, Maruti, Infosys, Yahoo, Agilent, Mahindra & Mahindra, McKinsey, Philips Electronics, Siemens Power, Wipro, Cisco System and Accenture, to mention few. About 650 job offers have been made by over 100 companies this year. Strong alumni base across the world.
- **Summer Internship** opportunities for UG and PG students in well-known organizations and institutions.
- Sprawling campus of 165 acres, with ICT-enabled classrooms, Wi-fi network, Digital library, hostels for boys and girls, Edusat Studio-cum-classroom and Technology Incubator Units.

Academic programmes

(B.Tech.)		(M.Tech.)	
Computer Engineering	Production Engineering	Computer Technology & Applications	Environmental Engineering
Electronics & Communication	Polymer Science & Chemical Technology	Software Engineering	VLSI Design & Embedded System
Biotechnology	Civil Engineering	Information Systems	Production Engineering
Electrical Engineering	Environmental Engineering	Nano Science & Technology	Electronics & Communication
Electrical & Electronics Engg	Engineering Physics	Micro-waves & Optical Comm.	Thermal Engineering
Information Technology	Software Engineering	Polymer Science & Technology	Power systems
Mechanical Engineering	Automobile Engineering	Structural Engineering	Instrumentation & Control
		Hydraulics & Flood Control	Applied Physics

MBA in Technology Management/ Supply Chain Management/ IT Management
