

DEHRADUN INSTITUTE OF TECHNOLOGY FAST FORWARD YOUR CAREER

Prof. KRISHNA KUMAR
Director
Dehradun Institute of Technology
Dehradun (Uttarakhand)

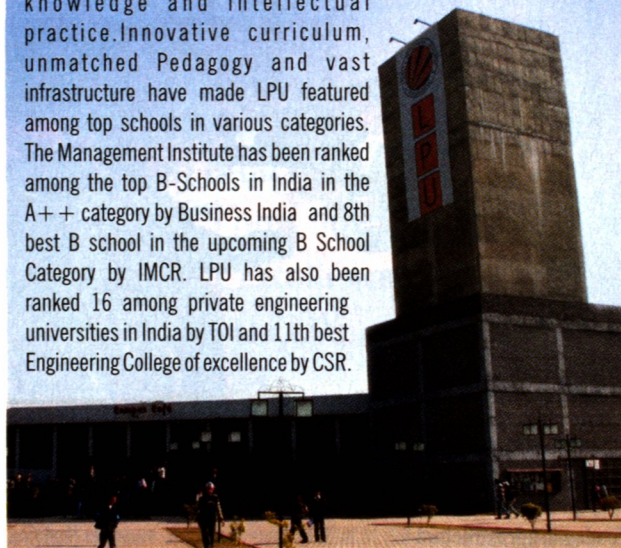

In an era when increasing numbers of students are enjoying the benefits of higher education in India, it becomes increasingly important to select an institute that offers courses relevant to both current and future employment in a globalised world.

DIT is dedicated to providing its graduates with a competitive advantage and the capacity for advancement in the highly competitive employment market. Our success in this regard is confirmed by our enviable placement record over the years. The Institute's vision is to be a national university for excellence in education for the professions, strategic and applied research and flexible delivery of learning and teaching. Our mission is to enhance communities with national and international scholars, researchers and institutions with whom our staff and students are linked. DIT places a strong emphasis on input from industry and professional groups to ensure our graduates have the right combination of theory and practice to be competitive in the international economy. Through well-developed and proactive links with these groups, our graduates can confidently embark upon their professional careers with the knowledge that they will be well received by employers around the world. With highest quality teaching, outstanding overseas partners, excellent placements and a fantastic learning environment - DIT is a well proven route to future success. We would be delighted to welcome you as a student into this exciting environment.

Prof Krishna Kumar is an aerospace engineer from British Columbia, formerly Dean of Academics, IIT Kanpur and Former Director, MNIIT Allahabad.

LOVELY PROFESSIONAL UNIVERSITY INTERNATIONAL EXPOSURE AND GLOBAL CULTURE

Started in 2005, with a vision to provide students the best education globally, LPU has truly emerged as a change and growth catalyst over the decade. With the increasing demands from the industry towards the students, LPU has tried to offer its students a different environment from the traditional academia to become true professionals with a comprehensive exposure. Through tie ups with renowned Universities of UK, US and Australia, LPU has attempted to provide its students international exposure and global culture. Its technology driven campus is spread over 600 acres at an accessible location near Jalandhar and has 24000 students in over 150 programs. LPU provides a whole range of integrated, under graduate and post graduate courses in various disciplines. As a 21st Century College, LPU takes continual feedback from the industry so as to equip its students and broaden the faculty's knowledge and intellectual practice. Innovative curriculum, unmatched Pedagogy and vast infrastructure have made LPU featured among top schools in various categories. The Management Institute has been ranked among the top B-Schools in India in the A++ category by Business India and 8th best B school in the upcoming B School Category by IMCR. LPU has also been ranked 16 among private engineering universities in India by TOI and 11th best Engineering College of excellence by CSR.

FRANKFINN INSTITUTE OF AIR HOSTESS TRAINING FLY HIGH

K S KOHLI
Chairman, Frankfinn Group

An entrepreneur by nature, Mr. K.S. Kohli is the chairman of Frankfinn Group, apart from being an Advocate in Delhi high court and Supreme Court of India.

Deeply interested in the aviation industry, Mr. Kohli sensed a rising boom in the same and pioneered the 'Basic Cabin Crew Training' in India and was the first to introduce the revolutionary total non-technical seven - days intensive 'Basic Cabin Crew Training' course, which aimed at clearing even the toughest interviews of Cabin crew, while the general norm prevailing at that time in the aviation industry training Academies / Institutes was a greater focus on

technical aspect of the same, which was of limited use to the candidates in selection interviews of airlines. Under the leadership of Mr. Kohli, Frankfinn broadened the spectrum of the course by including Hospitality and Travel industries too besides Aviation as all these three industries are closely interwoven and introduced a year long course, namely, 'Diploma in Aviation, Hospitality and Travel Management' with clear focus on selection interviews for the jobs in Aviation, Hospitality and Travel industries. The course includes Swimming, a mandatory requirement in international airlines for jobs of cabin crew and exposure to Computerized Reservation Systems (CRS) like Galileo and Fidelio softwares which is not in the course curriculum of any other Academy / Institute in the line as on date. Frankfinn's unique course curriculum makes one fully employable in these three industries, viz., Aviation, Hospitality and Travel. Frankfinn's placement record which has also been acclaimed year after year by the prestigious Limca Book of Records, is a proof of the affectivity of the curriculum. Mr. Kohli also planned to venture into the music industry in 2005. Now a new company viz. Frankfinn Entertainment Company Pvt. Ltd. has been formed and this company plans to become one of the top five companies in the entertainment industry in the next 5 years. Frankfinn Entertainment also launched its first feature film in 2008.
