

ICSI TRANSFORMING STUDENTS INTO MODERN CORPORATE PROFESSIONALS

N K JAIN
Secretary & CEO, ICSI

The Institute of Company Secretaries of India (ICSI) is a premier national professional body established by an Act of Parliament to develop and regulate the profession of Company Secretaries. The Institute's Headquarters is at ICSI House, 22 Institutional Area, Lodi Road, New Delhi. It provides postal and oral coaching and training to students to qualify as Company Secretaries. The ICSI has on its rolls over 25,000 qualified members both in Employment & in practice. Nearly 1.5 lac students are currently enrolled in the Company Secretaries Course.

Career as a Company Secretary is not only prestigious and financially rewarding but also carries With it a high degree of job satisfaction. Admission is open throughout the year with Examinations being held twice a year in June & December. The CS Course is by Correspondence / Distance learning with provision for Optional Oral coaching classes.

A qualified Company Secretary has openings in employment and can also practice as an independent professional. Almost every kind of organization whose affairs are conducted by boards, councils or other association, federation, authority, commission or like, finds it useful to appoint a person who holds the qualification of Company Secretaries in key administrative position. Practicing Company Secretaries have also been recognized to appear before various Tribunals. Attractive pay packages are offered to suitable Company Secretaries who are selected through Campus Interviews organized by the Institute. In recent campus interviews, the meritorious students were picked up at very attractive salaries ranging between Rs 3 lakh to Rs. 5 lakh per annum. In the large corporate and multi-national companies, a CS attracts, depending upon his capabilities, a pay package ranging between Rs 25 lakh and Rs.1 crore per annum.

IIMT GROUP OF COLLEGE TOWARDS A BRIGHTER FUTURE

YOGESH MOHANJI GUPTA
Chairman (IIMT)

The foundation of this magnanimous institute was laid in 1994. The sapling has been gaining strength and vitality with the outcome that today IIMT stands as the most beautiful and fragrant blossom of Meerut imparting quality education to the students. Hence, the college aims to accomplish the task to develop multifaceted personality and hone up the skills of the students to create a history. Education is not a preparation for life, is life itself. Students need to be taught how to shoulder responsibilities.

Since management of IIMT is a big affair, some responsibilities of the maintenance of discipline and conduct of function are invested in the students through Rotract Association of Students. Infrastructure is the base on which a good environment is built.

IIMT Group of College has five distinct campuses at different locations. Among them three are located at Meerut. Mawana-Highway, fourth at Mall Road and fifth at Greater Noida. Each college campus is well laid out in pollution free area with aesthetically planned landscape in sylvan surroundings providing environment conducive for professional studies.

At IIMT, guest lectures made by specialists from corporate sector helps our students to develop skills, which are essential in the corporate world. The combination of high quality programmes, lush green campuses equipped with state of art infrastructure, dedicated and efficient faculties provide a good platform to the upcoming talents.

So, to gather the fruit, to register victory, to score success and to have best ROI, you need to have such a platform.

SHARDA UNIVERSITY CENTER FOR HIGHER EDUCATION AND RESEARCH

Private Universities in India can be found in all hue and color. Some have been started to get out of the clutches of rigidity and impracticality imposed by the Statutory agencies, while some want to have complete autonomy in administration, finances and academics. There is no doubt that there is very little flexibility and very few innovations in higher education system in the country and if there is any system which has the potential to provide leadership for change, it is the private university system in the country! There are issues of finances and surplus, if these issues are not met and the private universities do not create a surplus of their own, the innovations would always take a backseat and massification of education will override quality and relevance.

Sharda University is a burning example of how best to utilize the resources to gear up innovations. It is a developing university, with constraints of money, yet since the management is visionary, it has invested money on bringing about changes in teaching pedagogy, introducing world class curriculum with flexibility, investing in futuristic technology like simulated lectures, learning management system and bringing in people from across the world to teach and to evolve an inclusive society in higher education and research.
